EXAMINER'S AMENDMENT

1. ✓ An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Patch on 6-29-2007.

The application has been amended as follows:

In the claims:

In claim 54 line 6 "an integrally formed reinforcing" has been changed to - -an integrally formed unitary reinforcing- -.

2. The following is an examiner's statement of reasons for allowance: The prior art does not anticipate or render obvious an integrally formed unitary reinforcing frame at least partially embedded in the body and made entirely of a first plastics material in combination with the other elements recited in claim 54. Reinforcing structures are known that utilize multiple components made of metal and plastic which are assembled into a supporting frame as shown in 4,674,251 to Wolff. A one-piece entirely plastic embedded frame with integral spacers as claimed is not known or obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
